

PROJECT: *To design, manufacture and installation of semi-automated cylinder filling system.*

CLIENT: *Speed-E-Gas Pty Ltd, New South Wales*

REFERENCE:

DETAILS: *Air and Gas Industries designed and built a carousel style filling system capable of filling 18kg and 45kg cylinders.
Project involved cylinder handling system, conveyors, filling platform with 8 filling stations and check weighing unit.
This was the first semi-automated system installed in Australia.*
