Building the Platform for Success

Introducing Raven CRUIZER™ - the simple, low-cost way to add precision guidance to your operation.

Put the benefits of Raven Cruiser™ guidance to work for you today

Save time and money Avoid overlaps that cost time, money and waste product. Eliminate missed areas to make sure you get optimal value from your input investment. Quick and easy installation and operation lets you set up and get in and out of the field more quickly.

Increase flexibility Cruiser can be used in a variety of operations. day or night, from tillage to seeding to spraying to harvesting. Move from tractor to tractor - even tractor to truck.

Reduce fatigue Easy to read guidance display means you have one less thing to worry about while you're working. Instead of keeping track of where you are in the field, you can concentrate on other important activities.

Improve profitability Add it all up and Cruiser benefits go straight to your bottom line - especially given Cruiser's competitive price and quick payback on your investment.

CRUIZER™

Raven Cruiser™ Benefits & Features

Cruizer offers sophisticated guidance technology in one affordable, easy to use unit!

Large 5.7" color high-resolution touch screen display with easy-to-understand icon-based menus and status for simple operation. Day/night mode ensures great visibility at any time.

Integrated light bar system for additional accuracy and guidance.

Easy two-step installation You can install yourself in just a few minutes. Uses cigarette lighter adapter as in-cab power source.

Built-in 10 Hz DGPS receiver Swath guidance and coverage area information using accurate sub-meter guidance of 9" pass to pass.

Choice of patterns Easily switches between A-to-B, Last Pass and Pivot. Raven's Last Pass guidance is the industry's easiest to operate contour guidance technology - perfect for terraced fields and grass waterways.

See what you need to see Bird's eye view and downfield 3-D perspectives. Field review screen helps verify coverage and identifies skips. Calculates acreage within a defined boundary.

Ready for upgrades When you're ready to add Raven assisted steering (Smartrax) or Raven tilt sensor, your Cruiser is ready, too!
